

Environmental policy for P and J Contractors Ltd.

Our aim is to carry out our business in conjunction with the following objectives.

Whilst carrying out our activities, to comply with relevant government guidelines,

Carry out our work with proper regard to protecting the environment causing minimal disturbance to the environment in all activities.

Promote the use of recycled materials where applicable.

Ensure employees receive appropriate training and information on environmental issues.

Actively improve our waste management by re-using or recycling wherever possible.

Avoid spillages and ground contamination by the use of safe working practices at all times.

Reduce our emissions as much as possible by maintaining modern vehicles and managing our routes as effectively as possible.

Efficient stock management therefore reducing delivery journeys.

Promote this policy to employees, suppliers and contractors .

Mr D Verbeeten
Director
May 2010.
